

SCHOOL CENSUS – 2002

PRELIMINARY REPORT

**MINISTRY OF HUMAN RESOURCES DEVELOPMENT,
EDUCATION AND CULTURAL AFFAIRS
SRI LANKA**

Prepared by the Statistics Branch

Preface

Up to date and accurate information is important in planning any event and field of education is no exclusion. The Statistics Branch of the Ministry of Human Resources Development, Education and Cultural Affairs has carried out without interruption, the census of schools annually for the past 4 decades.

To address the urgent data requirements of planners, researchers and various other data users, a preliminary report is published based on summaries prepared by Divisional Education Directors. This year, a second summary was prepared by principals of all schools and these summaries were processed by the staff of Statistics Branch, within a short period to come up with this report.

Annual School Census has become one of the tasks carried out with the contribution of the highest number of officers in the field of education.

I would like to express my appreciation to the officers from the Provincial Departments of Education, Zonal Education Offices, Divisional Education Offices and Principals of all schools for their co-operation without which we wouldn't be able to make the census a success.

Statistics Branch of the ministry bore the burden of compiling this report. Sincere thanks are due to the staff of that division for their hard work, specially Mr.K.T.Suresh Kumar, Statistical Officer for preparing data entry program and handling all data processing activities and Mrs.R.Nimalasena, Statistician for assisting Mrs.U.V.Jayakody, Senior Statistician who guided the staff in bringing out this timely publication.

Special word of thanks is also due to the Director General of Census and Statistics for making it possible to print the cover page of this publication at the Printing Division of his Department.

V.K.Nanayakkara
Secretary

Ministry of Human Resource Development, Education and Cultural Affairs
Isurupaya
Battaramulla

2nd December 2002

Source - School Census 2002, Provisional.

Note : Grade is the functional grade for functioning schools and approved grade for temporarily closed schools.

Functional Grade

1AB - Schools having A/L science stream

1C- Schools having A/L arts and/or commerce streams only

Type 2 - Schools having classes only up to Grade 11

Type 3 - Schools having classes only up to Grade 8

➤ Over the last intercensal period of one year, the number of functioning government schools has decreased by 65.

Note: Generally, the gender of students of the school is determined by the gender of students in grade 6-11 classes. Boys/Girls schools having students of the opposite sex in primary or advanced level classes are not considered as mixed schools. In Table 2, a school is considered as a mixed school if there is at least 1 student of the opposite sex.

➤ In 56 government schools, subjects are taught in English medium, either in grade 1,2,6,12 or 13.

Note : Both 2001 and 2002 censuses were carried out as at 1st June of the respective year but a drastic decline in student population is visible between these 2 years. The major reason for that difference is:

- In 2001, Grade 12 students were enrolled to advanced level classes in May and advanced level examination of that year was held in August and hence there were three batches of A/L students in schools at the time of the census.
- In 2002, grade 12 enrollment was done in May, and as the advanced level examination was held in April, there were only 2 A/L batches at the time of the school census.

a. Untrained teachers include volunteers and teachers paid by other than the government.

Gross pupil teacher ratio

Number of students per teacher (including academic staff involved in administration and supervision).

I.e. No. of students

No. of teachers

➤ Overall pupil teacher ratio has improved since last census in 2001 , from 22 students per teacher in 2001 to 21 students per teacher in 2002.
