We have already accessed into a system of education which is necessary to make Sri Lanka a global economic center as mentioned in the Mahinda Chinthana-future vision; the policy framework for developing Sri Lanka. A continuous system of monitoring and evaluation as well as self-evaluation is mandatory to increase efficiency and productiveness of the system of education. A self-analysis on strengths and weaknesses in every institute as well as on sub-sections that should be future developed could be determined thorough this and a helpful feedback could be given to rectify the problems identified.

This Annual Report complied with the help extended by the officers of the Management and Quality Assurance Branch of the Ministry of Education, Department of Provincial Education and Zonal and Divisional Education offices is a very important source that can be used for the qualitative development of education. I take this opportunity to thank all those who participated on compiling this very useful report.
